The Nonviolent Conflict Intervention Training lets you explore how nonviolent methods can lessen or prevent conflict— in your daily life, in your community, and around the world. The NCI curriculum was developed by Nonviolent Peaceforce of North America (www.nonviolentpeaceforce.org).

The one-day workshop is filled with hands-on exercises and role plays that will introduce you to:

Basic nonviolent communication and conflict resolution methods
How you can use these skills when you come across conflict in your daily life
How local and international peace teams use nonviolent strategies
in larger conflicts

To make a difference...

We believe that basic training in Nonviolent Conflict Intervention (NCI) Training should be as common as training in CPR. If someone has a heart attack, CPR can keep that person alive until the underlying cause of the attack can be addressed. NCI allows an individual, a relationship, or a community to survive without physical or emotional injury until the underlying cause of the conflict can be resolved.

Begin now...

The Nonviolence Conflict Intervention Training is open to everyone. The cost of the workshop is \$10. The workshop fee covers materials and light snacks.

The training is a full day. We ask that participants commit to staying the entire day. Lunch is not covered by the workshop fee, although time will be allotted to eat lunch together at a local restaurant.
